Dear Sir /
Madam,
Recently I learned about your Data Model Analyst position at your company Semantic Evolution. I have always wanted to be a part of a company that provides me with opportunities to learn industry-related skills and technologies. I am confident that my enthusiasm, self-motivation and relevant experience would make me a great fit for your program.

I have a passion for all things for business solutions. I have been pursuing this passion while working towards a degree in computer science at Boston University, and I just graduated in Jan, 2020.

Over the past semester, I have successfully finished several courses, including Data analysis in R, Database in SQL, Statistics, Mathematics, etc. I completed corresponding assignments and projects. Currently, I just graduated from Boston University with a Computer Science degree. I also have done programming courses related development to further hone my skills and broaden my tech stack. Through these courses, I have gained experience adapting to different technologies and programming languages for projects, including Python, SQL, Java. Machine Learning, it has made me an adaptable learner, and a big advocate for trying new and unfamiliar things.

Furthermore, I have a previous work experience as a software developer intern at Natural Science Function. Through this experience, I have learned about what a real productive environment looks like, as well as managing my workload and communicating effectively with co-workers both remotely and locally.

My enthusiasm for interesting work is boundless, and I strive to always bring my positive energy to every work environment. I would add value to the organization by bringing my teamwork, communication, presentation skills, as well as the technical abilities I have developed over the past 4 years. I would love the opportunity to further discuss my interest in the position, please feel free to contact me at yesyong@bu.edu and 1(718) 813-4377.

Thank you for your time and consideration.

Best
regards,

Yong (Caleb)
Zhou
